“When we agreed to take Mike on in our prep department, it was easy enough to assume that we had an opportunity to help make a positive impact on someone. What I didn't expect was the positive impact that Mike and OSLP have had on our team at Hop Valley. I believe that everyone on our team (myself included) has grown and will continue to grow through experiencing first-hand that we are all given our own set of strengths and our own set of challenges. I look forward to seeing Hop Valley's partnership with OSLP and with Mike continue to flourish as we move forward.”
